Quote:and u think i/whiskey cant do that with a light tank or an mrls? ;/ i have even killed entire bases on my own with an orca/apache which i am simply just not good with, never cared to be either, i was always the designated sniper in clanwars eitherway and yet my mrls and light tank are better than yours, you certainly don't get as many headshots with a light or shoot down as many orcas (both of which against decent opponents), or do as good a support job on field with the mrls.

Quote:are you saying i cannot lead a team? just because i generally dont like to tell people what to do in the most common of games (public) doesn't mean that i can't do this, no matter what u or spoony says about this... im quite certain i have enough insight in this game to lead a team, but i just prefer not to, and if you dismiss that as not qualified for it simply because i choose not to do so, then be my guest.

isn't it true that a good player who knows the right strats would help the team a great deal if he DID choose to lead? wouldn't your team win a lot more games if you did? if the answer's no then you're not a good leader after all, and if the answer's yes then doesn't that logically mean that someone who could help the team a great deal but chooses not to isn't in any meaningful sense the best player?

Quote:u act like its so hard to lead a big team, u just got to create order and make sure people are willing to listen, i know enough about strategy and everything involved, i am 100% sure i could lead a team that is willing to listen and has SOME individual quality to victory against just about anyone, if you really gotta see it, then im just gonna say: set up a match and let me lead it for the first time in my renecareer, it really cannot be that hard.

hooray, you're actually going to do it instead of talking about it?

Quote:Hitman and simpee are just as lame for continuing the charade, obviously.

"just as lame"? equally, you mean? so someone who sticks to what he says because none of it's been shown to be wrong is "just as lame" as someone who's been proven wrong again and again and again AND been caught lying several times, and won't back down? if you really think that, it's good we know you think that

Quote:fwiw half of what they're doing is trolling you, and you're such a n00b that they keep getting to you.

i think you'll find hitman is reacting out of anger, and simpee's just his usual pathological compulsive liar with his usual undying hatred of someone who's never done him anything but favours.

Quote:Now, my friends and family do know what a renefaggot I used to be, but they also know that I was 15 at the time and didn't know any better. They expect more for a 20 year old university student, and they would certainly expect even more from you, seeing as you're like 5 years older than I am.

you haven't actually explained what your objection is here, the fact i'm sticking to the things i said because none of them have turned out to be wrong yet?

Quote:Now what do I think about you being right? I'll tell you: COOL STORY BRO.

What do I think about simpee being wrong? COOL STORY BRO.

that wasn't really my question. what do you think about the fact that every single time simpee's in an argument against me, he flat out lies through his teeth to try to win the debate, and gets caught every single time?

what do you think about the fact he obviously has such an enormous level of hatred towards me, when -a- i've never done ANYTHING wrong to him (that's right, nothing) and -b- i've actually done him nothing but favours?

by contrast, all i do is defend myself every time he attacks me, and catch him lying every time he tries, which is fantastically often.

Quote:I don't give a fuck, both of you should grow up. I know it doesn't affect me, I don't even read your posts. I'm just astounded by the fact that every time I look at this forum, the page count of this thread grows by 2. How can 2 (I'm assuming) logical and maybe even educated individuals drop to this level?

you still haven't explained what "level" i "dropped" to. earlier it seemed that it pissed you off that i was right, you seemed a pretty sore loser about that.

Quote:who the fuck doesnt know what to do in every single situation by now?

you've all played every map a thousand times over, literally. strategies have been the same for years, fuck off with your leadership argument.

same question i asked simpee: could you take a team of renforums players that had never even played community matches or clanwars before, and lead them to victory against experienced teams like jelly?

could you lead public-server players to the point where you win the overwhelming majority of games?

if no, then some people are better leaders than others; if yes, you're choosing not to help the team by not doing so, in which case you're plainly not the best player
