THIS IS INTERESTING the resurrection of a dead horse is not a good thing this is coming from 43 years of living in experience "It's never a good idea to resurrect a dead horse" let sleeping dogs lay as they say.

Example of this is obvious note below comments just a few noted to many to really show in this message.

DON'T GET ME WRONG WITH WHAT I AM ABOUT TO ADDRESS I AM NOT BASHING ANYONE READ ON THERE IS A POINT TO THIS REPLY.

These comments are ridiculous..... Cheating to catch a cheat ?????????????????????? WTF

M0FiR3

don't forget that yonegga cheated his fucking ass off and ruined his own community ..

Ryu

If I remember correctly, "I was using cheats to catch a cheater", so on. He was such a retard. There was plenty of drama towards the end of Xphaze.

blunts

Lol xphaze and yonnies cheatin ass. Ya i remember those days. Blunts4m3 was my nick
Re: XphazeGaming

Now I could continue with the examples of what I am talking about and continue this rant I at this point will summarize it.

I saw the good, bad and ugly side of XphazeGaming and the demise in the end Mark, MYSELF and Mike "Yonnie" paid out the poop shoot to try to keep the services up and running to much time and effort was put into the attempt to keep the community alive and up and running.

In the end there were several factors in which were out of anyone's control the demise of XphazeGaming was the community in itself and from within.

To bring it back to life again is like this "History repeats itself due to the fact that as noted here the same drama is still around same adventurous negative attitudes, immaturity and plain lack of respect for each other and way to many grudges being held and utilized for propaganda and drama.

"Let bygones be bygones"

Before the Community is resurrected I think that everyone involved should take some personal inventory and stock in themselves and start fresh leave behind the old drama never to speak of this again start fresh it is the only way it will work and be a prosperous, well rounded and fun

community if this does not happen it will be a waste of time and money it will be a total failure.

1. Importantly MONEY, remember this is one of the biggest factors we had 3 people cant pay for a 300.00 dollar a month Net bill where you have 30-100 members and carry that weight Mike Mark and myself "Mark" ended up letting it go due to the fact we all had "PRIORITIES" personal and financial.

2. I haven't an issue with bringing back XphazeGaming however before this is to happen and be successful we need to establish and Financial commitment from all involved even if its just 5 dollars a month we have gone over this before enough of this rant today's economy is very tough and its getting tougher. World WIDE.....

"Have an account setup with Cash flow before we even attempt this"

As for the server files a lot has changed over the years so here it is I have all the server files backed up all our servers Mara, Sniper, Infantry even the old community layouts everything is backed up onto DVD it is a doable quest however there is only 2 people I will give it up to and that is Matty of course as he is and was our senior programmer "it is his work" and Mar72091 as he I trust more than anyone.

The rest is up to you ALL I can be reached through Atomix community as MorDos and I am interested in bringing the community back to life however the above must be achieved in order for it to be successful

"I wont support the old I AM TO OLD FOR THAT DRAMA.

I can even try to call Mike "Yonnie" and get his feeling on this being that he is the Owner of XphazeGaming name and Community, as he would be the best person to enable the account.

I have spoken with Yonnie we will be reviewing and discussing this today in a meeting Will let everyone know the results or he will respond accordingly.
