Hmm that's pretty weird. I can log in to the control panel using my Renegade account + pass or any of my other nicks (also Omar007 but other game) + XWIS pass (which is displayed in the control panel..)

Images

You can always try the 'Reset Password' on the first (login) screen but I'm not sure if that works (I never used that but I didn't need to because I remembered 1 of my nicks passes, which I used to login to the CP). You need either the valid nick or the email it's registered to.
If you use the nickname, you still need to access the associated email.

The screenshot shows the XWIS Control Panel interface. At the top, it displays the user 'Omar007' and links to 'Home', 'Maps RA2', 'Maps YR', and 'Logout'. Below this, there are fields for 'Serials' and 'XWIS Password', with a note: 'Not everyone needs to know my email, serials and pass :P'. There are buttons for 'Add Serial' and 'Reset Password'. Further down, there are fields for '22 digits' and '3 - 9 chars' with dropdown menus for 'Game' and 'Create Nick'. A section titled 'Nicks' lists several entries: 'Nox/TD/RA1 omar007', 'TS omar007 11:07 05-09-2010', 'RA2 omar007 18:52 23-06-2010', and 'RG omarserv 15:08 12-12-2010'. To the right of this list is a note: 'Other nicks, including my lost RA2 login'. At the bottom, there is a 'Clans' section and a footer with links to 'Community Team', 'FED2k', 'Strike Team', and 'XCC Home Page'.
