Any idea why it does not auth correctly all of the time?

01 = OSTKshai shaitan ~

[23:11:12] <OSTK> [Paged OSTKshai] OSTKshai is a protected name, Identify yourself in 60 seconds or you will be kicked.

[23:11:29] <shaitan> !auth OSTKshai

[23:11:29] <OSTK> OSTKshai not found in moderator list

[23:15:43] <OSTK> Moderators: ~OSTKshai

I did the same with shaitan67(ingame) w/ shaitan(irc). I also used OSTKshai(ingame) w/ OSTKshai(irc), and it works fine. Your bot dislikes my irc name(identified of course each time).
