Genius-Pr02IceSword7Usmi16Nah Halo has been getting alot of hype also. The only reason hlf2 has more is because halo hasnt released any new videos except for the recent multiplayer which not alot of people can see. It will be close which is better though. I guess we will know Sept 30.

half life 2 has 2 movies and halo has 2 movies

half life 2 will sell better because everyone has already played halo

Half Life 2 has 6 movies.....Those are just from the E3. First it was low quality and one movie now they release it high quality but in parts.

O and they released 7 from those movies
