IceSword7Lol that all you guys do is comment on peoples spelling, Which just proves how old you losers are. Have you ever talked to somone on AIM? thats how teenagers talk online. You = u, Are = r, Know = no

I know full well what the shorter versions of those words mean. What I'm saying is none of your sentences make any sense, even after you decifer the code you speak in. It's all jibberish and repeated jibberish. That's why I told you to speak English. I didn't say anything about your spelling you idiot.
