sorry to disappoint, Hitman.

I suffered a rage attack today morning as a cheater at Jelly killed my Deadeye when I was inside Ref. Something must be done about these fucking clowns.

tbh though, I did dig out UT3 and installed Ren X. I am still a bit pissed off about today morning and it will take a few days before I feel like reinstalling this addictive POS cheat infested game.

The good news when I logged in with my main old nick is that I find my nick to be YELLOW!

Thanks to whoever did that as I did play for RF in a few commwars. That was very nice!
