My server is back online now, nickname on XWIS=zunnie, it was gone for a few months.  
You can now play the 3 coop maps i done so far again

You can download the Coop maps over here:

<http://ren.game-maps.net/index.php?act=category&id=224>

I am preparing an FDS and Bot (By Blacky) for release, it is a beta though.  
Then you can host your own games if you want.

These maps will not work in LAN mode from within the game, you must  
play it through the FDS for Renegade.

If anyone is interested in helping with making more coop maps then  
feel free to join my channel on [#z](http://irc.mp-gaming.com)  
This #z is also the channel where my server reports to.

Seeya on irc maybe
