Any Good Dj knows that all Genre's of music has good songs...From country to rap to any form Electronica to rock..even folk and cultural music..there is good songsfrom each of them...just as there are some horrible songs from those genres.

theres no whiteboy music or old people music...it's up to the dj to feed what the listeners want.

obviuosly ACK is tuning into a different crowd then a few of you.

I'll drop by out of curiosity

EDIT:jay giles band -- centerfold now playing...not in the mood to sit thru anymore 80's after this...you got any Swedish techno??Adam beyer or chris liebinger?
