yeah ^

EA likes to re-package games and throw in "CLASSIC" just so the game can be priced down and re-boxed to look new and thrown into the bargain bin at wal-mart so more 9 year olds point the cool looking box out to their parents and take it home and try to install it onto their pentium 133 mmx argh.

just like how Virgin used to re-package C&C and call it "WHITE LABEL" and make a new fancy box and price it down to \$9.99
