Sorry sir, 3years wrong, I knew I was close though.

I don't use Facebook for one reason, I don't have the time too.

I work 2 jobs and look after a relative whenever i can.

This whole "pedo" thing is complete and utter bullshit. Why the fuck would you be a "pedo" with a wife and children? To be honest, if someone called me that on a site such as Facebook, I'd contact the Admins and state that theres a very sick indivigual spreading malicious lies and should have their rights limited.

You may have annoyed people sure, but everyone knows what st0rm mods are like in terms of abusing there powers and banning for bs reasons.

I think I remember your setjoin a very long time ago, it was something to do with RenCom - the server was dieing and you not thinking decided to advertise by stating RenCom needs players. You should've changed it mate. I think some servers should check the IP/Serial of when you're ingame too. Endgegner seems to be spoofing you in servers such as Atomix and using Arr Gee ahee.

I don't recall it being racist though, as you're not like that.

Edit: I'd LOVE to see proof of you cheating, backed up by unforged logs and/or screenshots proving that it was you in game, but we probably wont, as that evidence doesn't exist.

Shame on you for hacking Renforums Wilo, I'm glad I don't know you, as I'd probably throw up after finding out about the type of lies you spread online.
