Yeah, I've heard ACK and I can hear Crimson right now through after songs...is there anyway to talk back? Or is it like one way, DJ can talk to the listeners, but not the other way around?

right now listening to "System Off a Doubt"<- I think lol

LMAO-update
from Crimson "Your listening to n00bstories, right now it's AirCraftKiller's assramming hour, enjoy"
something like that, lol
