TankClash wrote on Sat, 24 September 2011 17:08Have you ever read what you've typed out-load to yourself before posting?

Seriously, read your last post out-load and not just in your head...

:Custom reticles and "skins" with the possible exception of stealth effect and clear scope dds are not blocked by 4.0. You're probably thinking w3d models. There may be a way to allowed certain custom model w3d files like the way RenGuard did.

My clearscope was blocked

Everybody is now sidestabbing me
