People play it. It isn't dead. If it was dead, no one would be playing it.

It doesn't have as many people as it used to, sure. But there are more than enough people for there to still be full matches.

And as long as you can have one full match at any point in the day then the game isn't dead.

You can only play on one server at a time. You can't be in two places at once. So what difference does it make if there is 1 full server or 30?
