Gohan that(fight) was done well over a month ago. That server was done in, because(like with all things around here) you guys got bored and pretty much wasted Xpert and Wilo's time in making it.

You know, I had lost the log file for that one-sided conversation we had. The one I mentioned where you spent 30 minutes bad mouthing St0rm, how you were going to do all sorts of terrible things in retribution for them opening a server that would take away players from your server or other servers, etc...

My paraphrased recollection of what you said to me that day was giving you the benefit of the doubt; it's a shame that you're so rage filled that you'd attempt to destroy a gaming server because you have absolutely nothing positive to contribute to this community at all.

Purely out of curiosity, what compels you to stay in a place where most people see you as a washed up middle aged child?
