I've had a few requests in the past on how to make maps (though most of you may already know... then why are you here?)

You can watch it on youtube here. (I know my voice may studder a little bit, but I hope I am comprehensive enough for you to understand me.)

The first parts are literally so basic, that experienced mappers may skip out on it, so if your new, be sure to watch the series!

There will be more parts comming... very VERY soon!
