Subject: Re: Version issue
Posted by MorDos on Sun, 11 Mar 2012 20:02:04 GMT

　　You were right I had an old objects.ddb file corrupt in data folder I found that, I fixed it. I cant duplicate the error I changed out the file thanks for the info It's no longer an issue however for future ref. A file issue will cause this version mismatch message.

Thank you for your time and attention.
