reckneya wrote on Sat, 17 March 2012 14:40Yeah indeed. Not using 4.00 scripts because you can't use certain skins makes total sense!

from what i've heard and what i've seen, in DJ's case it's probably more because he can't use a certain cheat that he otherwise can without 4.0

that explains his hostility towards an innocent program that seeks to protect players
