zunnie wrote on Tue, 27 March 2012 14:49I think they look fine, and i didnt make these maps in a week, i had them made up for TCW before, all i needed to do was port it to renegade.

Kthxbai

your own maps of course you say are fine. Do we care if you port them to ren? we don't need more poor quality maps, ren already have enough of those type.

@Spyder, your right, his making maps with such low quality, he could put more work on them. i can't say I'm good mapper, but even as consumer i don't like them.
