And as for bashing St0rm you guys make me laugh you all went running to crimson about Wilo attacking jelly and all ganged up on him but when it happened to st0rm and he asked for help you all turned your back on him

You probably don't have access to the server owners section. People did reply, but there is little to nothing that could be done considering no one knew who was doing it. To top it all off, he was bringing down his own servers while he was attacking others as a cover up.

Links to patches and WOLproxy was given. And if I recall, when I looked at the WOLproxy st0rm was running, it was nothing more than a relay. It did absolutely nothing lol.

there is other people at St0rm that can do far worst than what Wilo did to jelly. How was XWIS last month anyway. Just something for you to think about.

Most of us already know who it was. Does it matter? Are you trying to tell us there are people on the internet that are better than Wilo? Oh my, this is new to me

Tiny, tell us again why you're posting on this topic if you ummm "don't care" about this place? You seem to care enough to post here. You talk as if you don't act like a child yourself. You seem to not have any free will of your own if I last recall. I mean, after you found out Wilo uses you for nothing more than just money, you still continued to be his lapdog and suck on his dick for quite some time.

This topic was made to shed some light on someone that moderates for NS, in this case, Joe on his abusive style of moderating. If you "don't care" about the matter, then simply don't post in this topic. Unless you wanted some attention, in this case, you got it.
