Even more cock touching happening in that head of yours? Instead of talking about Wallywood more, why not actually answer my question?

I am not trolling when I ask it, What happened to the whole "trolling on the internet is bad, you are hurting peoples feelings" thing you had going?

Do you give up on your beliefs that easily?

If you were on TS earlier, I was going to ask you this because I am genuinely curious about the sudden switch you made.
