Mine still works fine.

```
void __declspec(naked) Suicide_Hook() {  
    __asm {  
        mov eax, [ecx+6B4h]  
        push eax  
        call DAEEventManager::Suicide_Event  
        add esp, 4  
        ret  
    }  
}
```

```
void InitEngineDA() {  
    DAMemoryPatcher::Install_Jump_Hook(0x004BA140,Suicide_Hook); //Hook cSuicideEvent::Act  
}
```
