I don't think you had a thing to do with the meatspin thing and this is exactly what I was talking about the other night on TS when I said "best thing to do is let the grown ups fight and to not get involved with something has nothing to do with you". Your jumping in front of bullets that are aimed at Super Heroes.

Well, 11 days before n00bparty, and the redirecting of your site, I was involved in discussion of this redirect. Originally, it was to be redirected to 3dholmes. I suggested something different, something surprising. Griever took it literally, and suggested meatspin. We (that means I as well) agreed, but then again it was 10 at night, so I was tired after a long night. I wasn't involved in the actual redirect, just the fact that it was redirected to Meatspin in the first place. And I do have logs to back it up. But the conversation was long, so I won't post them yet.
