I run RenCorner... We don't even have a "ragequit" feature?

I saw this in someone's signature:

[23:30:36] <&RCAOW> Host: [Rage Quit] RnD has RAGE QUIT the game, laugh at the n00b!
[13:38:21] <&RCAOW> Host: [Rage Quit] OSTKdrone has RAGE QUIT the game, laugh at the n00b!
[16:26:39] <&RCAOW> Host: [Rage Quit] Animoski has RAGE QUIT the game, laugh at the n00b!

That was from a long long long time ago, tmx runs the same exact thing, and a few other servers. I believe this was scripted by blacky.

We don't even run this anymore.

You run a ragequit command where when someone leaves it shows who killed them and they ragequit from it, this was !rq and it kicks you from game and shows that msg.
