one of the less intelligent past Jelly admins banned him for racism
hitman explained repeatedly that he meant "j00" which means "you" and not "jew" as in a jewish person
that mod didn't listen or care, and kept him banned for months

i know the jelly mod staff is overall pretty crappy, and never there when u need em, kinda like cops i suppose,but its an online game, i dont expect people to sit on mIRC all day long

so if a mod bans me now for "dont like the way you use tanks", and you think the ban is ridiculous, you're not gonna go and delete it, because it was another mods call to ban me?
