in some situations, it cant be done, most of the time it can

but requires quite some rene effort, and generally i cant be fucked, cause i hardly consider public a competitive game, i have explained why before, sure enough every player that was ever considered good(poison, me,spoony,...) on clanwars, would have a giant impact on public server(if he went all out, offcourse)

pretty tired of this discussion, but i can tell you the average clanwar player definatly does better by quite alot, than the average public player, in any game type (public or cw)

ps: u know alot of stuff for someone who doesn't even really play this game, and when u did u got raped and complained everytime lol
