R315r4z0r wrote on Mon, 21 March 2011 21:01The only time I will consider digital games over physical games is when they make it so my digital games are managed by me and me alone; not some internet regulation server I have no control over.

I agree. Steam is very clear about what happens if they decide to take your game off of their environment. I do enjoy Steam but would rather control my games.
