Subject: Renegade Level Editor not responding Posted by USS Ronald Reagan on Mon, 07 Jan 2013 06:02:29 GMT View Forum Message <> Reply to Message

I've been having a problem with the Level Edit. I've been trying to edit a few mission maps for a server. I open up the program load a map, and it just stops responding out of the blue. I am running windows 7 and just be advised that I am running this as an administrator. Pic is below at the end. Any suggestions? THANKS!!
