based on this statement, one can safely assume you have proof

feel free to show it - if you can't, you should probably apologize to him for slandering his name

He makes cheats, he does something to make himself glitch while sniping. Pre-4.0 and him coding, he wasn't even good. He was mediocre at best.

Did you ever have 100% proof of Mandai/cyberpunk/any of the other cheaters? Were you sitting next to them? Why ban for not having hardcore proof?
