RenList is a quick and easy way to join games.

Alternatively you could create a desktop shortcut

Quote:
Go to the folder where you've installed renegade, and in the 'Renegade' sub-folder there will be an icon called 'game.exe'. Create a shortcut for it and place this on your desktop.
Right-click on your new shortcut and add the following to the end of the path contained in the 'target' dialogue box: +connect ServerIP:Port +netplayername "<PLAYERNAME>"

Just replace ServerIP:port with whatever the server's IP and port is.

Welcome back.
