Subject: TT Patch 4.1 update problem Posted by will on Thu, 06 Feb 2014 16:51:33 GMT View Forum Message <> Reply to Message

Hi,

when my renegade updated I could no longer run the game anymore for some reason. I got a missing MSXVCR110.dll error but i fixed that. Then i got 'The application was unable to start correctly error code 0xc000007b'. So I reinstalled the whole game and tried installing the TT 4.1 RC2 patch.

I get this error now below

does anyone know what the problem is and know of a solution?

thanks
