Your full of shit Ripintou i have dial up and my speed says 56700kbps. I usually only get disconnected MAYBE once a day. And no ppl living out of cities and towns are screwed for high speed. Whenever theres lag in a game where im in (SURPRISE,SURPRISE) the host checks pings and a cable. dsl. person gets booted. SO whats your response to that! Go screw your lucky i have high speed internet ass off now. I RARELY get lag even if i join a 30 -40 person game.
