The screenshot shows a Norton File Insight window. At the top, a red banner displays the message: "This threat has been removed. No further action is needed." Below this, the file information is listed: "tt-scripts-4.1 (1).exe" and "Threat name: WS.Reputation.1". A "File Actions" dropdown menu is open. The "Details" section shows "Unknown Community Usage, Unknown Age, Risk Medium". The "Origin" section shows "Downloaded from http://www.tiberiantecholo...". The "Activity" section shows "Actions performed: 1". At the bottom, the Norton logo is visible, along with buttons for "Copy to Clipboard", "Restore", "Options", and a large yellow "Close" button.
