Apologies for my absence and lack of scripts work as of late, I was busy for the last few weeks working on <https://drive.google.com/file/d/0B9idqO9KygGselZUc29zeVNJM28/view> in preparation for <http://brisbanemodeltrainshow.com.au/> (the finished product looked much better than that one photo obviously Now that the show is over, I will be getting into scripts work again.
