Do not having to press an additional Key to compare with regular Cheats like Trist is doing here is just dumb. While i agree that some skins liek the Neon Skins for Snipers i saw in Forums are close to cheats, thats why they were forbidden on some servers.

Anyways, we wont agree on my point of view here, and since we cant use BB anymore i think we should just stop arguing, its exhausting to convince ppl of the right side of view when they blat. dont want to..

This post is totally crazy - it shows his warped brain in a nutshell
