So! Long time on see everyone.

I finally remembered my password and logged in after many years!

How is Renegade, Reborn and APB doing these days? Any big updates?

I know you can download maps in game now which is pretty awesome, never thought I see that, but what else? Anything else in the scripts?

Been playing Planetside 2 a lot, anyone else play that?

Thinking of playing Renegade again, but in game, xwis/wol shows no servers? Renlist.exe shows servers for GSA but am I missing anything?
