Here is a small update to the code.

Calls to Revive_Building are replaced with calls to Restore_Building (which is the correct engine call to use)

CommandREVIVEBAR and CommandREVIVEHON dont need to call

Set Can Generate Soldiers as SoldierFactoryGameObj::On Revived does that for you.

CommandREVIVEGDIPP and CommandREVIVENODPP are fixed to use Find Power Plant.

CommandREVIVEGDICY and CommandREVIVENODCY dont need to call Is_Building_Dead as BuildingGameObj::On Revived handles that all for you.

CommandREVIVENODSILO and CommandREVIVEGDISILO are fixed to not need the revived variable anymore.

CommandREVIVEAGT and CommandREVIVEOB are fixed to use Find_Base_Defense.
