Your response to Vista is priceless lol. I skipped that piece of crap and went to Win 7. I'll keep it until I'm forced to update. Win 10 can bite my ass, damn thing was not geared toward utility.

Out of those guys who voted XP, I'd take iB-BEDO with a grain of salt. He changed it three times until I yelled at him to pick one.

Also on our ingame pollings: it's more accurate 1-2 weeks into it.
