I wanted one more shot at FUD, since they and I have never seen eye-to-eye.

FUD's representative posted this in n00bstories:

Quote:We, as a clan, have taken to reading his works and studying the Buddhist way of thinking. Everyone can learn from Buddha, even us

ROTFLMAO.

Here are fud rules, posted on the Clan Website. It's almost as if the BUDDAH HIMSELF told them what to say...

Quote:1) No fatties.

2) No whining.

16) If you type like a retard you will be banned

-Roughly translated, we don't care who you are, if we feel like getting on or we don't like you or you have too many vowels in your name ...you can and will be banned with no warning
