Sir PhoenixxNodbuggerCrimsonI save all images as jpegs but I don't actually change the file at all... image headers are weird.

I'd actually prefer you not store your forum signature images in there anyway... I had to pay \$90 in bandwidth charges because of all these people who don't use it like it's intended.

what about the image hosted by thing in the bottom corner? Why did you decide to put that in there?

To show who the image is hosted by. If you don't like it than you can either get it hosted by someone else or get a premium account with n00bstories.com .

very good idea.. premuim accounts only for image hosting  
i thought you had unlimited bandwidth tho crimson ? O\_O
