I think the guy's a complete whack job with his head so far up his ass that he can't see which country he's living in. He needs to cool his head off with some nice liquid nitrogen, and give it a few nice hard bonks with a hammer. Followed shortly by a rabid skunk taking a whizz on his shoes.

It's a damn shame that asswipes like him exist; I'm fully in favor of a bastard hunting season with him as the prime target.

That said, unfortunately he DOES live in the US, and because of that his views ARE constitutionally protected. He can say whatever he damn well pleases...unless he starts infringing upon other peoples' rights as American citizens. Until then, he can go on ranting and raving about the "corruption" of American society, and anyone else can go right on saying that he's a sexist, racist, anti-atheist, over-modest, pompous ass.

The Supreme Court would have an absolute field day with this twerp, because if any of his crap ever got driven through, it would be struck down instantaneously because of a little document called the Bill of Rights. Most of it would get hung up on the first amendment(such as the dress code and the ban on tattooing), but other things would get snagged by right to privacy and other amendments.

In conclusion, I disagree with almost everything he said. He may go on spouting his neo-puritan crap as long as he wishes. That is all.
