Phsyco army, you obviously didnt realise what happened... I will explain:

U asked me for an alien model, so I went ahead and asked my friend for one, and when i gave it to you, i said i made it (dumbness of me). So i thought my friend made it, you thought i made it, i didnt think anything would go wrong.. Then when i found out my friend took it (i had no idea, serious) i was like "O M G" so yeah, i messed up.. Only once though, yeah u can call it stealing off a friend, who stole off someone else.

You talked to me on msn, I didnt reply cauz i was playing halo, not cauz i was ignoring you or anything, which i guess you would have thought. I just wanna forget about it
