If I had a sig with a dozen different things in it, pictures of cars etc it would be large too. But by definition a sig is supposed to be brief and concise.

I'm not picking on you, I'm just stating one of the very few common sense guidelines that are posted in the forum FAQ/rules that have been posted since day one.

<http://www.renforums.com/viewtopic.php?t=19>

"Just keep in mind that by definition a "signature" is a small signoff message. Anything larger than 3-4 lines of text stops becoming a sig and turns into 'that big picture at the end of the post'."

Just a few of your posts with that huge sig in a thread makes everyone have to scroll dozens of lines more than they normally would. I agree the picture is amusing but there are many large pictures that are amusing and we don't all put them in our sigs. You could resize it or put a link to it in your sig.
