<http://www.klan-host.com>

We used servermatrix for 1 month (3 weeks really) and had terrible problems with latency and disconnects from WOL.. I gave them a chance to figure out what it was and fix it, but they couldn't do it unless I sat there 24/7 and collected tracerts from 3 other locations TO the server every time it disconnected from WOL.. so I just said "bye"

We've only had 1 night where there were problems with our current provider, and it was their upstream providers routing.
