Subject: Working on a Web based FDS config manager...
Posted by Alkaline on Sun, 01 Feb 2004 05:27:59 GMT

SS217A) Needs a restart
B) Sounds like a FDSWeb rip-off much like JG is a rip-off to DS :rolleyes:

A) looks like you can't read. FDSweb doesn't allow editing of ini files :rolleyes: I already said this is not like FDSweb, it only edits server config files :rolleyes:

B) come with something more original then your copy of DS :rolleyes:
