Genocide! This is my MP-5 for the RA2 : Vengeance mod for Renegade.

It's alright... The front is too large, the mid/body part is too small, the magazine is too small, and for 1140 polygons it should have more detail than that.

Quote: I took Reference from 2 pics of models of it.

Doesn't look like it. You do know that you can put an image in the background of the viewport right?
