[HLOWTomten]cool cool, now I just need the files, not easy to find it.

If you are talking about Flukeshot's game last night:

The Cops and Robber mod is a scripts.dll mod, hence it won't work with the Linux FDS unless Jon manages to find a way to hack the Linux FDS.

Additionally you won't find that particular mod on the net, as it is still in the early stages of development.
