That ftp is not working form me either

I removed all .mix files that I was going to replace,

I tried to download that file from fleplanet, but when I try to extract the files into my folder, winrar says:

C:\GAMES\Command&Conquer Renegade\Data\fixed_westwood_maps.rar: Unknown method in C&C_Canyon.mix

C:\GAMES\Command&Conquer Renegade\Data\fixed_westwood_maps.rar: No files to extract in other woprds, the files will not extract in winrar and winzip

WTF is wrong?
