I resently got this game and I have been runnign a server priddy much the day I got it caleld "Recoil's Readyroom" Some of you may have hurd of it. I have been running it almost 24/7 for well over a week.

I was wondering is it posable to swich a server fromn dedicated to none dedicated without closing it and restarting it?

Also how do you add a Lanquadge filter to the server?

Thanks for your help
