It's my first time making a map, and I've used this turotial :
http://www.cncden.com/ren_map_tutorial.shtml
but I can't get past step 6 or 7.. when I try to step 7 my plane will go under the construction yard,

you can see the coordinates at the bottom right. The coordinates are what you really need right now. Leave them down in that bottom corner
they won't stay there they dissapear as soon as I unlick the edge button.. help please?
